RESIDENT’S PARKING CONDITIONS

Parking is available for residents of St Leo’s College under the following conditions:-

1. The grounds of St. Leo’s College are private property.
2. Any parking is allowed at the absolute discretion of the College administration.
3. Vehicles parked within College property are at the owner’s risk, and must have a current registration.
4. Access is granted at the rear boomgate by using the electronic fob supplied to Residents as their room key, PROVIDED that the Resident has properly registered their vehicle details with the front office & their fob has been enabled for car park entry.
5. A deposit is no longer required and previous style electronic cards may be surrendered at the office for a refund of their $20 deposit.
6. A valid permit label MUST be clearly displayed attached to the windscreen.
7. Residents of St Leo’s College must park only at the rear of the College, access is via Sir William MacGregor Drive.
8. Parking is not permitted adjacent to yellow-painted kerbs or in such a way as to block movement in driveways for other vehicles, especially emergency vehicles. To do so will result in cancellation of the permit. Vehicles must be parked properly between lines and parallel (and close) to kerbs.
9. The permit is not transferable and must only be used by the Permit Holder for the designated vehicle. To allow access of the permit label to other people or vehicles, or to use the electronic fob to give access to other vehicles, will result in the imposition of penalties under the provisions of the Conditions of Residence which include a $40 fine.
10. Changes of vehicle details MUST be advised to the College office promptly. A change of vehicle details will require the issuing of a replacement windscreen label and the surrender of the previous one – even in a damaged condition.

Residents may only apply for a permit for a vehicle which they themselves own or have full use of, and proof of ownership may be required.
